## ACCUSED TORCH SLAYER ADMITS LIFE OF CRIME

Convicted as Henry Close In 1909 of Forgery, Embezzlement

## DISAPPEARED AFTER SERVING SENTENCE

Has Married Many Times In Course of Long Criminal Career

Elizabeth, N. J., April 16.—Henry Colin Campbell, confessed torch slayer of Mrs. Mildred Mowry to-day, as he admitted, authorities stated, was Henry C. Close, forger, embezzler, ex-convict, polygamist and modern Bluebeard.

Detectives and Bertillon experts in New York compared the fingerprints of Campbell and Close and found them to be identical.

When confronted with this startling fact today, Campbell readily admitted that he was the man who disappeared from public sight in 1909 after a career of crime, nationwide in scope.

Served In Prisons

Close, who was the son of a New York educator, served terms in California and Sing Sing, and married and lived with three wives at the same time. He vanished from sight a number of years ago.

Close was first sentenced to a five-year prison term in California for forgery, but through the influence of his father he was pardoned. He then returned east to open a health farm at Montclair, N. J., and soon married Miss Sarah Phelan, one of the nurses.

In 1899, police records show, he was married to Marie Becker, an orphan of Scranton, Pa., following the birth of a daughter, Dorothy. The couple went to Mexico, but Close's funds soon ran out and he returned alone to Montclair. In a short time he had obtained a respectable position with a firm that traded in photographic supplies.

Conduct Investigation

The disappearance of several valuable articles led the firm to conduct an investigation of Close's life and it was revealed that there was a Mrs. Close No. 1, a Mrs. Close No. 2 and a companionate wife known as Maude Allen. Later it was learned that he had married still another woman, Mrs. May Parkinson Powers, in Pawtucket, R. I.

After fleeing to Mexico, Close was finally apprehended and sentenced to serve seven years in Sing Sing. He disappeared from sight completely after serving his term at Sing Sing. As the New York police believe, he may have settled at Elizabeth to continue his life of criminal conduct under the name of Henry Colin Campbell.

## BRIDGE TOURNAMENT DRAWS PLAYERS OF 3 COUNTIES

Entry List In Memorial Competition Growing Rapidly

Bridge enthusiasts of three northeastern Ohio counties will gather at the Memorial building Thursday and Friday nights for the first annual tri-county bridge tournament. Several hundred entries are expected from at least seven cities in Mahoning, Stark and Columbiana counties. Joe M. Kelley, director of the Memorial building announced today.

Twenty couples are expected from Lisbon, Kelley stated, and additional players will represent Canton, Alliance, Leetonia, East Palestine, Lisbon, Youngstown, Columbiana and Salem. All clubs in this city have announced intentions of entering, Kelley said.

To Be Annual Event

The tournament will become an annual event at the Memorial building, according to the director's announcement.

"The Memorial building has been sponsoring recreational activities for Salem's younger class for the past five years, and in succeeding years, we hope to provide older persons at least one bridge tournament annually," Kelley states.

Attorney Homer H. Hickling has been appointed official scorer and chief judge, and will be assisted by Kelley and others on the Memorial building staff.

Winners in both men's and women's duplicate contests will be awarded silver trophy cups. A cup will also be awarded in the open championship. The Howell or Mitchell point system will be used.

## FEAR FELT FOR NILES BANKER

Prominent Resident May Have Met Foul Play, Is Belief

Niles, O., April 16.—Carter McConnell, 49, secretary of the McKimley Savings & Loan company, has been missing since last night, it was revealed by police here today.

McConnell was to have attended a meeting and made a report to the Masonic Temple association, of which he is treasurer. He was seen last night in the bank and in his own automobile in front of it, at about 8 o'clock.

Officials of the bank and of the Masonic Temple association today expressed confidence in McConnell's integrity and said they feared he might have been the victim of foul play.

The missing man was shot and slightly wounded last fall during an argument with William McFadden. The latter was sentenced to the Ohio penitentiary but is said to have escaped recently from the penitentiary brick yards.

McConnell is a native of Niles, is married and has two sons, one of whom is a student at Bethany college.

Sixty-four years ago Sunday Abraham Lincoln, president of the United States was assassinated by J. Wilkes Booth at Washington.

Grant Elton, East High st., has a copy of the Republican Extra, published in Salem, April 15, 1965.

A concise statement of the murder and the escape of the murderer is given in this paper. A part of the account given of this national tragedy follows:

"Washington, April 14, 1865.—This evening President Lincoln and wife were at Ford's theater, occupying a box in the second tier, listening to the play of 'The American Cousin' when a man entered the box and shot

Mr. Lincoln in the head. The ball entered the back of his head, passing out above the right temple. Mr. Lincoln fell forward. Mrs. Lincoln fainted. The assassin jumped on the stage, flourishing a dagger in a tragic manner, and shouting the motto of Virginia 'Sic semper tyrannis' and disappeared behind the curtain.

Cel J. B. Stewart, who was seated in the orchestra, sprang upon the stage, and pursued him, but owing to the fright of the actresses he was impeded, and arrived at the door about three seconds too late. The assassin mounted a horse that was hitched there for him and rode away."

## Highpoints of Hoover Message To Congress

Farm Relief—Tariff Revision

The difficulties of the agricultural industry arise out of a multitude of causes. A heavy indebtedness was inherited by the industry from the deflation processes of 1920. Disorderly and wasteful methods of marketing have developed. The growing specialization in the industry has for years been increasing the proportion of products that now leave the farm and in consequence prices have been unduly depressed by congested marketing at the harvest or by the occasional climatic surpluses. Railway rates have necessarily increased. There has been a growth of competition in the world markets from countries that enjoy cheaper labor or more nearly virgin soils.

In this treatment of this problem we recognize the responsibility of the people as a whole and we shall lay the foundations for a new day in agriculture from which we shall preserve to the nation the great values of individuality and strengthen our whole national fabric.

Certain safeguards must naturally surround these activities and the instrumentalities that are created. Certain vital principles must be adhered to in order that we may not undermine the freedom of our farmers and of our people as a whole by bureaucratic and governmental domination and interference. We must not undermine initiative. There should be no fee or tax imposed upon the farmer. No governmental agency should engage in the buying and selling and price fixing of products for such courses can lead only to bureaucracy and domination.

The difficulties of agriculture can not be cured in a day; they can not be cured by legislation; they can not be cured by the federal government alone. But farmers and their organizations can be assisted to overcome these inequalities.

An effective tariff upon agricultural products, that will compensate (Continued on Page 6)

## TWO DEAD, FIVE HURT IN BLAZE

Home Burns Following Explosion of Incubator; 4-Year Boy Victim

Columbus, O., April 16.—Mrs. Wanda Harris, 32, seriously burned when fire destroyed her home at Harrisburg, near here last night, died in a hospital here today, bringing the death toll to two in that blaze.

Columbus, O., April 16.—A 4-year-old boy is dead, and five other members of his family are suffering from burns, as a result of a fire which destroyed their home at Harrisburg, southwest of here, last night.

The blaze is believed to have started when an incubator, which had been placed near the straw cot upon which the boy and his two brothers were sleeping, exploded. The bed burned like dry tinder. Harold Harris, 4, is the dead child. His mother, Wanda Harris, 32, and two brothers, Oscar and Wilbur, 10, were badly burned. All are in Mt. Carmel hospital here and their conditions are described as critical.

The lad's father, Warner, 32, and his grandfather David Harris, 60, were burned about the face and hands in their attempt to rescue Harold, after carrying Mrs. Harris and her two other sons to safety.

Neighbors succeeded in checking the fire after battling for two hours. The house was almost entirely destroyed.

## PRESIDENT NOT IN PERSON ON "MESSAGE DAY"

Document Read to Both Branches by Clerks Of Bodies

FIVE POINTS TO BE CONSIDERED

Farm Relief and Tariff To Draw Main Effort From Legislators

Washington, April 16.—President Hoover made five recommendations to congress today in his first presidential message.

In an unusually short executive message, he proposed to the special session:

1.—The enactment of a general farm relief measure, the basis of which would be a federal farm board with wide credit powers, and authorized to reorganize the agricultural marketing system on "more stable and economic lines."

2.—Limited revision of the tariff in certain schedules, with increased powers for the tariff commission.

3.—Suspension of the national origins clause of the 1924 Immigration act, which becomes operative on July 1 unless congress acts meanwhile.

Provides For Census

4.—Reapportionment of congress, which all congresses since 1929 have been evading, in defiance of the constitution.

5.—Legislation providing for the decennial census of 1930.

Other matters, indicated, can go over until the regular session in December, but on the first two—Farm Relief and Tariff—he expressed the opinion that "the government has a special mandate from the last election."

Mr. Hoover did not deliver his message in person, as did Wilson, Harding and quite frequently, Coolidge. His dislike for public speaking prompted him to send his message to be read in both houses by reading clerks. The physical absence of the president detracted somewhat from the usual color and glamour of "message day" at the capitol. But the galleries were crowded none the less to hear what the new president had to propose.

States Session Purpose

He briefly stated the purpose of the special session in his opening sentence.

"I have called this special session of congress," he said, "to redress two pledges given in the last election—farm relief and limited changes in the tariff."

Agricultural depression, he said, arose from a variety of causes" and the general result has been that our agricultural industry has not kept pace in prosperity or standards of living with other lines of industry."

Because of the multitude of causes and because agriculture is not one industry, but a score of industries, we are confronted not with a single problem alone but a greater number of problems. There is no single plan or principle that can be generally applied."

## YOUTHS JAILED AFTER BATTLE

Fight In Downtown Area Attracts Attention Of Officer

Two pugilistically inclined Salem youths were remanded to city jail for two hours, Monday afternoon, following their arrest by Patrolman Ralph Stoffer for an alleged exhibition of their boxing prowess on Main st.

The juveniles displayed their knowledge of rough-and-tumble fight tactics in the center of the city's shopping section about 5 o'clock yesterday, as an aftermath of what police report was an argument in a downtown poolroom over a coat which the younger lad was alleged to have stolen from his adversary.

The scuffle, police say, started in the poolroom, where the 16-year-old denied taking the coat. Outside into the street they went, fists flying, feet kicking back and forth, until both displayed discolored optics and various other facial discolorations. The battle waged back and forth for almost an entire block of the street, a large crowd gathering to watch the exhibition.

Stoffer was notified of the affair, and the embargo was stopped as the younger of the pair was on the verge of annihilation.

They were given two hours in the city bastille to negotiate compromises, following which Mayor Phil Hiddleston heard their cases and imposed fines of \$25 and costs to each.

## SAFETY-AT-SEA CONFERENCE

The present week witnessed the opening in London of the "International Convention for Safety of Life at Sea," which is expected to ratify an international agreement looking to the result indicated by its name. The agreement was originally drawn up in 1914, but was never placed in force owing to the breaking-out of the World War. The original conference was called as the result of the sinking of the Titanic with its appalling life loss. It is something of a coincidence that the present conference was called so shortly after the Vestris sank off our eastern coast taking with her 110 of her passenger list and members of her crew.

It is said to be the very general view of marine experts that, despite all the many devices which have been introduced to safeguard travelers at sea, the surest way to lessen the possibility of life loss is to make ships as nearly unsinkable as possible. It is the existing view and belief that, while there can be no such thing as an unsinkable ship, the nearer the approach to it the greater is the chance of saving the lives of those aboard should accident occur; that even in cases where it is necessary to take to lifeboats, the longer the vessel remains afloat, the greater is the chance of lowering and filling them safely.

While comparatively little of the shipping of the world is American, we of America have an interest in the London gathering for the reason that we of all the world are most given to ocean travel—over a million sea voyages were made by Americans last year—and the further reason that, whatever the conclusions reached by the conference and the consequent safety measures agreed to, knowledge of them will be had before the work of construction of the big, fast liners planned by the United States Lines, Inc., is inaugurated, and thus they will be at the date of their launchings in full accord with all that is deemed best to prevent life lost at sea.

## HUMANE WEEK

This is Humane Week.  
Organizations of this country which have directed their efforts towards the betterment of conditions for our friends and helpers of the lower orders of life are spending this week in spreading an appeal to the public to better conditions.

As far back as history traces the development of man it tells of the contest he has had with animals of the lower order. They have provided companionship, guarded homes and flocks and carried heavy loads as well as being a great aid in providing food to the hunters of early days who had to depend on craftsmanship in woods and fields for their very existence.

Man has been prone to forget comforts of these friends and fellow workers, perhaps because they lack means of complaining and take enforced hardships in a very matter-of-fact manner.

Overwork and neglect have been two of the most flagrant injustices men have imposed, mainly through carelessness or mere negligence. Those so-called "dumb" friends have by faithfulness, which has extended through ages, warranted the best man can give them.

Just a little thought and effort directed towards them will go far.

## What Others Say

AVENUE DU MARCHEAL FOCH  
Not the least of the charms of Paris is the happy custom of using the names of streets as a means of honoring distinguished men and women of France and of other lands. Since Paris was but a small village on the Uie de la Cite, the municipal council has taken occasion in many instances to honor the illustrious dead of the city, of France, and of aliens beloved by France.

Now the municipal council of Paris has chosen to give the name of Marshal Foch to one of its most beautiful avenues. The Avenue du Bois de Boulogne runs for nearly a mile from the giant arch of the Etoile sheltering the tomb of the

"Unknown Soldier" to the ever-beautiful Bois.

On either side of the smooth expanse of asphalt are wide walks lined with the typically Parisian iron chairs. Here nurses bring the children to play in the sun, demurely promenading daily, and leisurely old men sit with their sticks against their chairs. It is one of the most beautiful boulevards of all Paris, the city of boulevards par excellence. It is fitting that it should be dedicated to the great marshal who may truly be said to have saved France.

It is probable that later the council will select a street in the section up from the Trocadero in honor of another distinguished man, this one an alien who was dear to the French as few aliens have been throughout modern history. Ambassador Myron T. Herrick was a true friend of France and as well as distinguished citizen of the United States, and an avenue named for him in the section which he regarded as home for so many years will be a happy means of perpetuating the memory of his service to both countries.—Cincinnati Enquirer.

## LIFE AND GOOD HEALTH DEPEND ON LIVER

BY ROYAL S. COPELAND, M. D.  
(United States Senator from New York)

Your poor old liver is a much-abused organ. It is called upon to take from your system great quantities of poisons, some of them perfectly natural and, in that sense, "proper." But unfortunately we are careless of our highest welfare and are inclined not to guard the liver against unnecessary demands upon its powers.

An important part of the blood vessel system of the body, is a group of veins beginning in the lower intestine and bowel. The blood is carried from here into larger veins, all part of what is called the "portal system." In this way it reaches the liver.

The portal blood is filled with bacteria and poisons which have originated in the waste materials in the bowel. Of course, Nature has adopted wonderful protective measures and, under fairly normal conditions, will prevent the escape through the portal system of more such agents than the liver can destroy or modify without undue effort.

The liver is a laboratory where wonderful things are done. It is its function to "work over" the poisonous things and feed them into the general blood circulation so slowly, or so changed, that they do us no harm.

If it were not for this remarkable action, these poisons would get immediately into the general blood supply and life would be pretty doubtful. As it is, however, this much-abused liver does us a good turn many times a day. It is one of our best friends.

One of the faults of modern life is the consumption of foods that make for constipation and fermentation in the bowel. Germ action goes on and poisons are developed which are bad for us.

It is not well for us to overlook the evil effects of constipation. There can be no doubt that it is capable of doing us real harm. Except for the watchful care of the liver, in filtering out these poisons, we would certainly suffer far more than we do.

No longer do we talk of "biliousness" as our ancestors did, but it cannot be denied that many a person is hampered in his work by the neglect of intestinal cleanliness. The poor liver has been overworked in

consequence and has failed to keep the overabundance of poisons from reaching the vital parts.

Headache is the most familiar symptom. Sickness at the stomach, sleepiness, unwillingness to work, loss of appetite, irritability, mental dullness, coated tongue, brown spots of the skin, unclean complexion, dark circles around the eyes—all these are signs of a neglected intestine or an overworked liver.

Each of us should be careful about the diet. Roughage to cleanse the intestinal walls, fruit and vegetables and proper eating habits generally, are essential for our general welfare.

Life depends on the liver!

## The Stars Say—

For Wednesday, April 17

A DECISIVE march forward is foreseen in this day's sidereal operations, in spite of obstructions, delays and possible disappointments. But these are to try the timber and should not be permitted to thwart the gasping of an excellent opportunity for an advantageous move, with new advantages and business of fresh and important possibilities. It is a time for making new contracts, for changing environment or for travel. But be not downcast by domestic or personal inharmonies or depressions.

Those whose birthday it is are on the eve of a year of splendid opportunity, with change, probable travel or removal, all with radical and unforeseen results. But obstacles and delays must be overcome and personal inharmonies or sorrow adjusted. New business and contracts are recommended. A child born on this day may be talented possibly to the degree of genius, original, independent and adventurous. However, it may have to work resolutely to win success.

Not in vain the distance beckons, forward, forward, let us range.—Tennyson.

### FEDERAL PLANES BOMB COLUMN

Rebels Claim Loss From Aerial Activities Are But Slight

Sanora, Mexico, April 15.—Federal headquarters today reported that two of their airplanes had dropped 30 bombs on rebel troops during the night. The rebels were enroute to join the forces of General Yucapico, who was left in command of the Naco area after the departure of Generals J. G. Escobar and Fausto Topete.

Approximately 2,000 troops, cavalry and infantry, have arrived at Sanora during the past 24 hours. Reports received from there said the bombs dropped by federal planes did little damage.

With strong federal forces converging on two sides of Agua Prieta, it is thought that the rebels will either have to make a stand soon or slip through towards the south and join the troops of General Topete.

### Child Welfare Clinic Scheduled For Lisbon; 1st Time In County

Lisbon, April 16.—Under the direction of C. H. Growdon, director of the department of field clinics of the State Bureau of Juvenile Research, a clinic, the first of its character ever held in Columbiana county, opened in the court room of Juvenile Judge Lodge Riddle this afternoon.

The clinics are held for the purpose of going into child problems upon which juvenile courts request advice and opinion.

Certain children are to be brought before the examining board, and the study of the cases will consist of a series of mental examinations, and a careful study of the nature and causes of the child's delinquencies, together with consultation and advice as to the possible future management or placement of the child in order that its condition may be improved.

With each of the cases submitted by the court for examination in Columbiana county a history of the child and its condition will be placed before the examining board.

The clinic Tuesday morning was held in Tuscarawas county, and after the examinations have ended in Columbiana county the examiners will then go to Warren for an all day clinic Wednesday. Five children were to be presented by the board by Judge Riddle this afternoon for examination.

### REPARATION SUM IS SATISFACTORY

Dr. Schacht Finds Manner Of Reaching Figures Acceptable

Paris, April 16.—There was another amicable session of the International Committee of Reparation Experts today when Dr. Hjalmar Schacht, head of the German delegation, informed the allied delegates he was entirely satisfied with the explanation as to how the sum of \$24,000,000,000 was reached as the total of Germany's obligation.

Dr. Schacht had asked the committee yesterday for enlightenment not only as to the total but the method of calculation used in determining the sliding scale of annuities.

Contrary to expectations Dr. Schacht did not make any counter offer. However, International News Service learns from an authoritative source that the Germans' tentative maximum is estimated at an indefinite total, to be covered in 37 annual payments, each payment being under 2,000,000,000 marks.

Based upon the par value of the German mark, which is 238 cents in United States money, 2,000,000,000 marks would be \$476,000,000. Over a period of 37 years it would be somewhat less than \$17,615,000,000, not counting interest which would, of course, swell the total.

What is it that makes one frock any more attractive than another? Sometimes it's the color, sometimes the line, and sometimes the wearer. In this case it happens to be all three! ## Church Differences Prevent Marriage

Unfortunately for King Boris (above) of Bulgaria, who wants to wed the Italian Princess Giovanna (above), his country's constitution stipulates that the heir to the throne must be a member of the Bulgarian Church. This ruling furnishes the barrier here, inasmuch as the Pope refuses the Princess a dispensation to marry a non-Catholic unless offspring of the union will be reared in the Roman Catholic faith. These circumstances have given rise to rumors of an alliance between the King and the Grand Duchess Kira Vladimirovitch, 19-year-old daughter of Grand Duke Cyril.

### FARM RELIEF

The farmer's higher costs and higher standards of living, has a dual purpose. Such a tariff not only protects the farmer in our domestic market but it also stimulates him to diversify his crops and to grow products that he could not otherwise produce, and thus lessens his dependence upon exports to foreign markets.

The general result has been that our agricultural industry has not kept pace in prosperity or standards of living with other lines of industry.

The most progressive movement in all agriculture has been the upbuilding of the farmer's own marketing organizations, which, now embrace nearly two million farmers in membership.

Government funds should not be loaned or facilities duplicated where other services of credit and facilities are available at reasonable rates.

### TARIFF REVISION

basis upon which the tariff commission makes its recommendations to the president for administrative changes in the rates of duty should be made more automatic and more comprehensive, to the end that the time required for determinations by the tariff commission shall be greatly shortened.

The formula upon which the commission must now act often requires that years be consumed in reaching conclusions where it should require only months. Its very purpose is defeated by delays. I believe a formula can be found that will insure rapid and accurate determination of needed changes in rates.

There is increasing shipment of goods on consignment, particularly by foreign shippers to concerns that they control in the United States, and this practice makes valuations difficult to determine. I believe it is desirable to furnish to the treasury a sounder basis for valuation in these and other cases.

Considerable weaknesses on the administrative side of the tariff have developed, especially in the valuations for assessments of duty. There are cases of undervaluations that are difficult to discover without access to the books of foreign manufacturers, which they are reluctant to offer. This has become also a great source of friction abroad.

Thompson of the High school received 91 per cent.

S. M. Reynolds and Mr. and Mrs. Wilson Barber and family visited Mr. and Mrs. G. V. Sharp of Cleveland over the week end. Mrs. S. M. Reynolds, who has been visiting in Cleveland, returned home with them.

Mr. and Mrs. R. S. Coppock of Alliance called on Mr. and Mrs. C. E. Hobson and family Sunday.

Mr. and Mrs. Weikert of Columbia and Mrs. Weikert of Columbia Sunday.

## LEGISLATURE

(Continued from Page 1)

awaiting a ruling from Attorney General Gilbert Bettman as to whether the Morgan-Riche Act, providing for a state office building, is now effective as law or whether the measure is subject to the 90-day referendum period. If it is subject to the referendum period, the act does not become effective until July 7.

The question arises because of the fact that the measure provides for a direct state tax levy of 1 of a mill, estimated to yield about \$5,500,000, to be used in erecting the office building.

### To Accept Vetoes

The legislature this afternoon is expected to accept the governor's vetoes of the Wise Bill, providing for appointment of a deputy state treasurer, and the Emmons Bill, authorizing creation of a division of the deaf and blind in the state department of education. Announcement of these vetoes were made at the governor's office Saturday night.

Within 10 days following adjournment of the legislature the governor will pass upon 167 of the 223 measures enacted during the present session. To date, he has attached his approving signature to 50 measures and vetoed three. He must dispose of three more measures before midnight tonight, including the Bohn Bill, providing for three additional common pleas judges in Cuyahoga county, and the Weir Bill, authorizing election of an additional common pleas judge in Trumbull county.

While the governor was said to be in doubt as to what action he will take on the Bohn Bill, it was indicated that he would approve the Weir Bill.

## "Peek-a-Boo" Effect

(Posed by Anita Page)

Grace and delicacy are two prominent features of this tulle dance frock. This is developed on a flesh colored taffeta slip, and reaches almost to the floor in back. The shimmering embroidered sequins on a net foundation form the bow-knot pattern at the back in such clever fashion, it looks for all the world as if it had grown there!

## RESOLUTION IN MEMORIAM

The undersigned committee appointed to prepare a resolution relative to the death of Harry A. Gager, the late president of this Council, report as follows:

Harry A. Gager was born January 7th, 1883 in Salem, Ohio, a son of L. P. and Mary L. Gager; educated in the public schools Mr. Gager following the death of his father in 1901, left school and became identified with the Salem News. In 1907 Mr. Gager left the newspaper field to go with the Natural Gas Company of West Virginia. He continued to be actively identified with the business in its Ohio operations until the company became a part of the Ohio Fuel Corporation in 1925, when he then became assistant general superintendent. When the Ohio Fuel Corporation merged with the Columbia Gas and Electric Corporation in 1928, Mr. Gager became connected with the management of the Pittsburgh Corporation of the Columbia System as a special agent and was engaged in this work until the time of his death.

On February 17th, 1909, Mr. Gager was united in marriage with Miss Mary Hardy of Leetonia, Ohio, who survives.

Mr. Gager was a member of the Salem Business Men's Association, later The Chamber of Commerce and served as its president in 1917 and 1918. He was also a member of the Kiwanis club and had served as president of this organization. He was an active leader in the Democratic party, both in Salem and Columbiana County. From 1908 to 1910 he represented the second ward as a member of city council and served on the Board of Education from 1912 to 1914. He had also served as Clerk of the Service Department and at the time of his death was serving the second year of the term as president of city council.

Mr. Gager was a member of all the Masonic bodies in Salem and also Al Koran Shrine Temple in Cleveland.

It was with sincere and deep sorrow that we learned that the death of President Harry A. Gager had occurred on Monday, April 1st, 1929.

He was a just president, a good friend, a great human being; he was one of the kindliest men we ever knew and in his work in this council and in his private life, he was a man of the highest standards of integrity and honor. His death is a great loss to the council of the City of Salem and a heavy blow to many of his friends, old and young.

Mr. Gager was a charming, kind gentleman, greatly beloved and admired. His was the character that engendered affection and confidence. It was with an understanding that transcended sorrow and misfortune; his a humor that vanquished trouble and minimized cares. He delighted in the merry quip and jest and left in his way happier hours and happy memories. His life was good, inspirational and edifying. It was singularly marked by love and devotion and by faith and charity.

We hereby record our sincere appreciation of his character and ability, his industry and integrity, his earnest co-operation in all public matters as a citizen and his unfailing loyalty as a friend.

Therefore, be it resolved by the Council of the City of Salem, State of Ohio:

That we deeply deplore his loss.

That we extend to his wife our deepest and most heartfelt sympathy.

That a copy of this memorial be spread upon the records of this council; that a copy thereof be furnished to the Salem News; and that the original copy be sent to the widow.

Respectfully submitted,  
W. U. FILLER,  
GEO. SLOCUM,  
MAX ADLER,  
Committee.

# 250,000 Swarm To Ball Parks As 1929 Season Opens Today

## Inaugural Day Draws Attention Of Entire Country To Baseball

NEW YORK, April 16.—Wars may be declared across a counsel table in some far off land, death may come in wholesale guise to the inhabitants of some tiny village along the Ganges and the United States Senate even might table another resolution today without disturbing the serenity of a nation that is utterly absorbed in what is considered the real news of the moment.

For baseball, it seems, must carry on in spite of everything—even in spite of itself sometimes—and today it opens its 1929 major league season with all of the pomp and pageantry of the great ceremonial game.

Governors, mayors and other high public officials will preside over the season in each of the eight cities that are sponsoring an inaugural, namely, New York, St. Louis, Washington, Cleveland, Boston, Philadelphia, Chicago and Cincinnati.

It is possible that President Hoover will continue the custom of inaugurating the opening of the Washington opening, and, of course, there will be the usual parades, presentations and flag raising.

It is expected the boom of favorable weather, upward of 250,000 persons will swarm over the eight baseball parks that are to be thrown open to the public today for the first time this season. The Yankee Stadium in New York probably will be the most crowded, ranging somewhere in between 65,000 and 80,000, and the plants in other cities will operate at capacity or near-capacity. For this is the one day of the year that is honored universally by the ball fans and those who cannot watch the actual progress of play will keep in touch with developments by radio, by telephone and by mechanical scoreboards flashing the various newspaper of-fices.

The schedule for opening day follows:

**American League**  
Boston at New York.  
Chicago at St. Louis.  
Philadelphia at Washington.  
Detroit at Cleveland.

**National League**  
Brooklyn at Boston.  
New York at Philadelphia.  
Pittsburgh at Chicago.  
St. Louis at Cincinnati.

**Smart Openings**  
There is a lot of tempo to this program, any way you care to view it. The Washington opening not only will send two live contenders out on the same ball field but also will introduce the Capital's idol, Walter Johnson, as a major league manager. St. Louis naturally will go for the Browns-White Sox opening because it knows Howley has something with his Browns, which "doped" seventh but finished third last year. Some even think the Browns are due in 1929.

**Pirate-Cub Inaugural in Chicago**  
Is another live one, thanks to Howley and the fact that both are not contenders. The game will be Hornsby's first in a Cub uniform and that club has been touted so strongly that it would be hard to keep the mugs away with a quarantine sign over every gate. The Yanks drew only the ambitious Red Sox as an opponent but opening day is an event in New York, regardless of the attraction. Besides, the Yanks always are interesting and always

**KONJOLA ENDS ELEVEN YEARS OF SUFFERING**  
Stomach Almost Ruined By Medicines Taken To Relieve Rheumatism and Neuritis

MRS. A. J. TIPTON  
"I can not find words to express my gratitude for Konjola, nor my amazement at the way it relieved me after eleven years of dreadful suffering from neuritis and rheumatism," said Mrs. A. J. Tipton, 215 Oak Street, Ludlow.

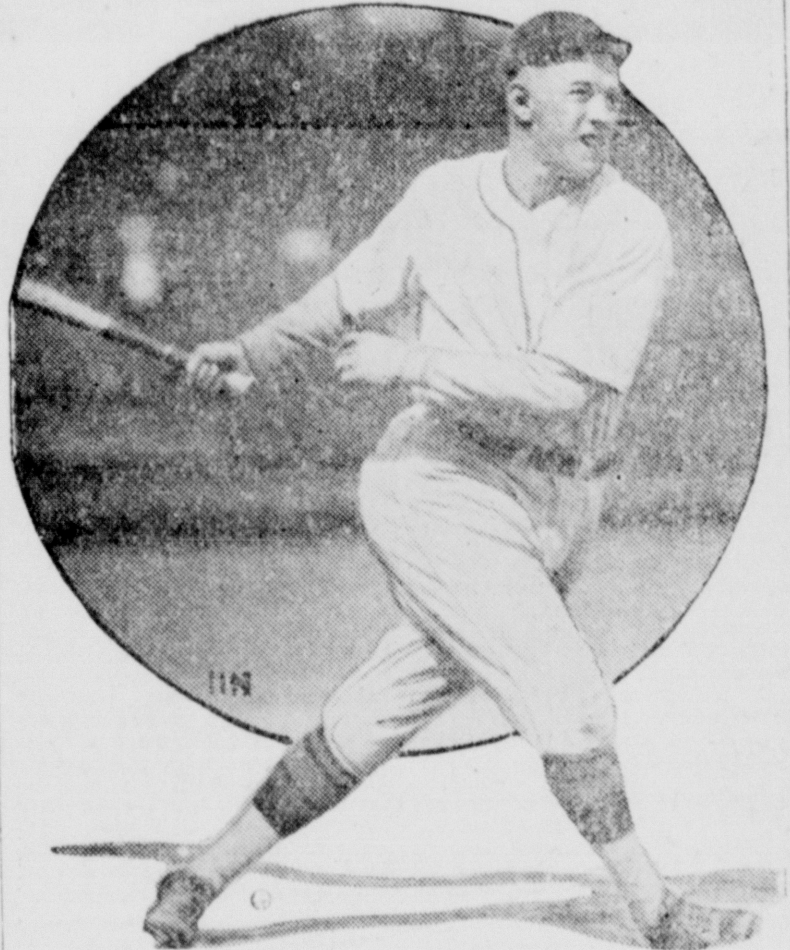

"To add to my pain, my stomach was almost ruined by the strong medicines I took in the hope of relieving the rheumatism and neuritis. These wrecked my digestive system, but did not do the least bit of good. My entire body was a mass of aches and pains.

"When Konjola was recommended to me I was inclined to scoff, for I had no more faith in medicines. But friends insisted. The result was simply wonderful. My stomach was strengthened so that I could digest anything. I feared that this relief might only be temporary, but months have passed and the magnificent health that Konjola restored to me is with me yet. No wonder Konjola is known as the master medicine, and I recommend it from the bottom of my happy heart."

Konjola is sold in Salem at all J. H. Lease drug stores and by all the best druggists in all towns throughout this entire section.—Adv.

# Johnny Kusic To Clash With Fritz Anderson Here April 26

## Valuable Veteran to Play Outfield

Probably deciding that Boots Grantham, above, was too valuable a hitter to be warming the bench, Donnie Bush, wily Pirate manager, has shifted him from first base to the outfield with the Waner brothers where Boots will play the left garden. Anyhow it was a big surprise that the big Polish recruit, Adam Comorosky, was benched after the fine showing he made at training in left field camp, but he will be on the bench only part time.

## Three All-Star Bouts Arranged For Mullins Foreman's Club Show

Fritz Anderson, of Detroit and Johnny Kusic, Youngstown, have been signed for the eight round final which will feature the all-star Mullins Foreman's club fight show at the Memorial auditorium, Friday, April 26th.

Anderson and Kusic have appeared as opponents in the same ring on various occasions, the Youngstown scrapper being awarded the decision in the larger portion. Three weeks ago they met at Alliance in one of the most hectic slugfests held in this district in some time, Kusic being handed an exceedingly unpopular decision.

Both are scheduled to enter the squared circle at 140 pounds. Anderson appeared in Salem for the first time in a Foreman's club show late last year, handing Young Rudy, Charleroi, Pa., slugger, a lacing in ten rounds.

Young Rudy may reappear in action here, in the semi-final, being carded to engage an old adversary, Rudy Thomas, Detroit flash in another slugfest slated for eight rounds. The pair provided sensational entertainment for a district fandum last winter, when they swatted back and forth for ten rounds at the Memorial gym, the Pennsylvania lad being given the verdict.

Thomas, with little doubt, is probably one of the most scientific cauliflower artists to have been viewed

here for some time. Rudy got over few clean blows, and was awarded the decision mainly over his ability to carry the fight to him most of the time. Thomas' main weakness appeared to be the lack of a sleep-producing punch, but apparently was well versed in artistry of maintaining his own perfect equilibrium throughout.

Rudy was slightly injured in a bout in Pittsburgh, last week, but will be in action here if he recuperates by the end of this week, with each of the four participants having faced each other in previous engagements, sensational grudge affairs should rule the evening's ring atmosphere.

The first of the eight-rounders has not been definitely arranged. Promoter E. M. Murley now is negotiating with Don Burchard, Detroit, for a dual with U. S. Carpenter, Pittsburgh, for the occasion, and will have Alvie Miller, of Youngstown, here, if Burchard cannot make the necessary arrangements. Either way, it should be a good scrap.

Burchard and Carpenter, as have others on the card, furnished part of the action on previous Mullins shows. Zeke Jones, Canton, will oppose Terry McGovern in the six-round curtain lifter.

The Hague.—Queen Emma, Queen though more than seventy-one years of age, is a very speedy traveller. She recently went to London to visit the exhibition of Dutch paintings at Burlington House and was back in the Dutch capital within twenty-four hours. She remained strictly incognito.

Persons who want anything know that The News is the Want Medium in this vicinity. So read it.

### In Playhouses Of Salem

"CHINATOWN NIGHTS" the fascinating tale of a feminine member of society's traditional "400" love for an underworld king, ruler of Gotham's Chinatown, is narrated in vivid manner in "Chinatown Nights," the State theatre screen feature which plays in this city tonight and Wednesday.

Wallace Beery, famous cinema villain, is produced on the celluloid in a new role, that of emperor of the Chinatown section of New York. "The Bloody Angle," one of the most famous street intersections

in the world, by which Doyers and Phelps streets are known, for the thousands of long conflicts which have been fought there, is pictured dramatically in Beery's activities.

The Oriental mask stripped from the guns, knives and hatchets of the yellow race, the wonders of America's Orient, opium dens, secret passages, and other scenes of actual existence are shown.

Florence Vidor, scintillating actress in the lead opposite Beery, as the smart society woman falls in love with the brutal white boss of the sinister district. Reduced by her affections to a depraved, slovenly creature of the gutters, a woman who finds her love a futile and unwanted thing, both Miss Vidor and Beery appear in epoch-making roles.

#### "REVENGE"

That vivacious tale of Gypsy life, with the captivating Dolores Del Rio in the leading role, "Revenge" continues its run at the Grand theatre tonight Wednesday and Thursday. Leroy Mason, Jose Crespo, Spanish film star, imported specially for this vehicle, and James Marcus appear in co-starring characterizations.

Miss Del Rio has one of the greatest parts ever offered her in the colorful role of the Gypsy girl who despises men because they became as docile as a lamb under her fiery dominance. She is the daughter of a Gypsy bear tamer living in the Carpathian mountain region of Roumania. She tames both men and bears into gleeful submission, but in her attempts to rule a man, "Rasha" meets her match.

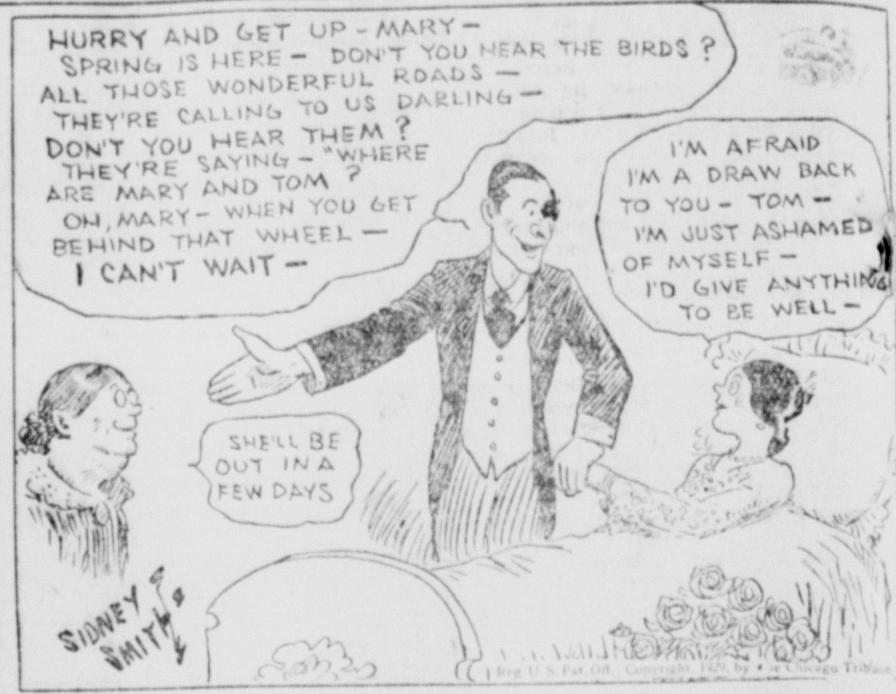

#### "Caught in the Fog"

May McAvoy is co-starring with Conrad Nagel in Warner Bros. comedy "Caught in the Fog," now showing at the Royal theatre.

In "Caught in the Fog" Miss McAvoy plays with naive charm the role of an amateur in thievery who goes with a sheik crook to steal a famous string of pearls from an abandoned houseboat. Once aboard she meets the owner, Conrad Nagel, who whips the sheik, forgives the lady, and becomes involved with her in one of the most amusing and swift-moving thief chases ever recorded by the screen.

The cast includes Mack Swain, Charles Gerrard, Ruth Chertington, Emil Chautard and Hugh Herbert. Jerome Kingston told the story which was adapted by Charles R. Condon and directed by Howard Bretherton.

Miss McAvoy and Mr. Nagel have appeared together in former Warner Bros. pictures with signal success, but they have never had quite so whimsical and altogether delightful an opportunity to combine their interpretive abilities as in "Caught in the Fog."

## THE HOME KITCHEN

By Jeannette Young Norton

"How can I manage to use up a quart of milk a day as we're supposed to?" demanded my neighbor, pointing dejectedly to a row of half-full milk bottles. "I order a quart a day, but we forget about drinking it—all except the top, which I skim off for cereal in the morning."

Milk is one of those few "perfect foods" which everybody should drink generously, but which we rarely think of taking. Doctors tell us constantly that for health's sake, most adults should drink a quart a day. But when?

You can get some in a breakfast—either as a separate drink instead of coffee, or used generously with cereal. Another glass at luncheon; perhaps some hot milk late at night, just before going to bed. If you can take milk straight, there are half a dozen times during the day when there is opportunity to get down a glass of it, either pure milk, or with the addition of egg or flavoring.

But there are many of us who don't like milk particularly, and by some odd chance, it's usually the thin, undernourished persons, needing milk the most, who like it the least. Also, with the best intentions to drink your daily quart, it's easy to forget. You can automatically compel yourself to drink a lot of water every day by eating a bit of ice-cream or a bit of milk late at night, during the dependable thirst. But the only way to make sure of getting your daily quart of milk is, either by drinking some straight at mealtimes, or what is easier, eating those foods which are cooked with milk as the chief ingredient. These dishes, for which basic recipes follow, are suitable either for luncheon or dinner menus:

#### Cream of Corn Soup

One quart of milk, two cups canned corn, two tablespoons butter, three tablespoons flour, one-half teaspoon salt.

Let the milk cook until it reaches the boiling point, then add the corn and cook five minutes longer. Rub flour, seasoning and cold milk together until smooth, gradually blend with the milk and corn, add the butter, and when it reaches boiling point again, it is ready to serve.

This is a basic recipe and can be varied with other vegetables, fish or meat. Instead of corned corn, chopped cooked celery can be used, or beans, or mushrooms, carrots, etc.; chopped clams, chicken, or boiled fish like cod or haddock can also be added to hot milk to make an excellent thick soup.

Another way to use up milk and make sure that it will be eaten with some enjoyment is in the shape of dessert. Junket or rennet, though it has a custard-like consistency, is simply whole milk solidified. It can be served in any number of ways—flavored with almond, coffee, chocolate, and many persons who don't like milk and refuse to drink it, will nevertheless eat it with pleasure if it comes on as junket. Junket comes in tablet form, and you can buy it by the package in any grocery. There are about a dozen tablets to the package, and one tablet solidifies a quart of milk.

#### Plain Junket

Two cups of milk (one pint), one-half junket tablet, three tablespoons sugar, one-half teaspoon vanilla.

Heat milk until lukewarm only. Crush the junket tablet in a tablespoon of cold water. Then mix with the milk, add the flavoring, and if you like, a dash of salt. Pour into sherbet glasses, and leave in a warm place until it jellies. Then set in the icebox to chill. Serve with whipped cream.

#### STYLE EDICTS

Paris, April 17.—Gloves now form such an important part of the ensemble that the chic dressmakers of the capital are giving place to them in their collections. They insist that if gloves are to match the costume, or rather, harmonize with it, the glove-makers must cooperate with them and vice versa. In the meantime, the day really seems to

have arrived when a woman can walk into any dressmaking establishment and come out completely transformed in every detail. Not a single feminine need has been neglected by the couturiers who are even threatening to put the big performers out of business.

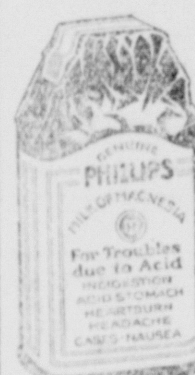

Striking new evening gloves are made of fine black lace draped on the arm and tied above the elbow with a gold cord and gold kid gloves are being shown with a pink tulle dress trimmed with gold. Plain black evening gloves in sixteen-button length have been launched by all of the couturiers but are still seen at few evening gatherings.

Gloves with cuffs, straight or reversible compose a good part of the collection, in spite of the great

vogue for plain slip-ons. And there seems to be a trend toward more sober effects, with trimmings of insets of kid or borders and motifs of modern inspiration, frequently in two tones.

Daytime gloves in beige and brown come with mousequaire cuffs, sometimes matching or contrasting with the costume, but always keeping to the ensemble idea.

A black glazed kid with cuff trimmed in gold mesh and embroidery on the hand of black silk and gold thread are worn with a plain black tulle. A navy glazed kid has an original cuff of a triple cord of white kid with hand-stitching in white. And fancy gold braid and gold buttons trim another pair in beige suede.

## When a Child is FEVERISH, CROSS, UPSET

Colic, gas, sour belching, frequent vomiting, feverishness, in babies and children generally show food is souring in the little digestive tract.

When these symptoms appear, give Baby a teaspoonful of Phillips' Milk of Magnesia. Add it to the first bottle of food in the morning. Older children should be given a tablespoon in a glass of water. This will comfort the child—make his stomach and bowels easy. In five minutes he is comfortable, happy. It will sweep the bowels free of all sour, indigestible food. It opens the bowels in constipation, colds, children's

ailments. Children take it readily because it is palatable, pleasant-tasting.

Learn its many uses for mother and child. Write for the interesting book, "Useful Information." Address The Phillips Co., 117 Hudson St., New York, N. Y. It will be sent FREE.

In buying be sure to get genuine Phillips' Milk of Magnesia. Doctors have prescribed it for over 50 years. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Chas. H. Phillips Chemical Co., and its predecessor, Chas. H. Phillips, since 1875. Adv.

## Baby Not Gaining? Look to His Digestion

Babies can't gain when souring waste in a clogged digestive tract is forming gas, making them colicky, constipated and miserable. Just try the method doctors endorse, and millions of mothers know, and see how your baby improves. A few drops of purely vegetable harmless Fletcher's Castoria makes the most fretful, feverish baby or child comfortable in a jiffy. A few doses and he's digesting perfectly and gaining as he should. Do you know the very best way to make hair stay just as you have dressed it? Simply a few drops of Danderine! Try it, and you'll never want to use sticky dressings again—or even brilliantine.

A little Danderine on the scalp actually dissolves every particle of dandruff scale, and leaves the head absolutely CLEAN. But stroke a few drops through the hair (use your comb or a Danderine-dampened towel) and see how well it looks and behaves! Any permanent wave or water wave lasts much longer and looks much nicer when Danderine is used instead of water to "set" the wave.
